

# VALUE FOR MONEY!

In these premises you can find an EU-financed project in action.

And not just any project, but a good and interesting one.

Today's EU projects want you to know what they are all about, so please read on!

## The project MAREA aims at:

Increasing the share of sustainably planned and managed marine and coastal areas in the Baltic Sea by integrating knowledge from marine environment to environmental accounting and developing understanding of sustainable use of natural resources while providing solutions for new Blue growth opportunities.

## The project MAREA will result in:

- 1) Models for ecosystem services in two case study areas and a framework for combining them with marine ecosystem accounting.
- 2) Sustainability Compass for realization of United Nations Sustainable Development Goals.
- 3) A geospatial tool.

## The project is a joint venture of:

Finnish Environment Institute SYKE, Finland | Pellervo Economic Research PTT, Finland |  
University of Tartu, Estonia | Baltic Environmental Forum, Latvia

This is done with 1.202.608,77 euros from the European Regional Development Fund.
